GOOGLE CLOUD PLATFORM
GCP SETUP

SIGNING UP FOR GCP

- Google Cloud Platform (GCP) is a public cloud, nearly anyone with a credit card can sign up
- GCP usage may incur billing
 - From time-to-time GCP offers a “free tier” of usage and/or credits for new users
 - These credits or free tiers come with limits
 - Usage outside those limits or if they are not available will most certainly result in charges

THE GCP DASHBOARD & ACCESSING GCP

- Available in any web browser - includes “Cloud Shell” interactive CLI
- iOS & Android native applications available on the respective platforms’ app stores (features & functions vary)
- Google Cloud Shell Command Line Tool Kit
